Dm **Bb**
Run and hide, it s gonna be bad tonight
F
Cause here comes your devil side
C
It s gonna ruin me
Dm **Bb**
It s almost like, slow motion suicide
F **C**
Watching your devil side, get between you and me
Eb
So tell me what I need to do
Bb
To keep myself away from you
F
To keep myself from going down
A
All the way down with you
Dm **Bb**
Still I want you, but not for your devil side
F **C**
Not for your haunted life, just for you
Dm **Bb**
So tell me why I deal with your devil side
F **C**
I deal with your dangerous mind, but never with you
Bb **Dm**
Who s gonna save you now, who s gonna save you?
Dm **Bb**
I can t lie but I don t miss those times
F **C**
We were on a high, I thought it would never end
Dm **Bb**
But you and I, we ve come from the same long line
F **C**
Good kids with a devil side, just going around again
Eb
So tell me what I need to do
Bb
To get myself away from you
F
To keep myself from going down
A
All the way down with you
A
All the way down with you
Dm **Bb**

I want you, but not for your devil side

Not for your haunted life, just for you (just for you)
Dm Bb
So tell me why, it s always your devil side
F C
It s always your dangerous mind, it s never you
Bb Dm
So who s gonna save you now, who s gonna save you?
Eb
So tell me what I need to know
Bb
To make you wanna change it all

To keep myself from going down
A
All the way down with you
A
All the way down with you
Dm Bb
I want you, but not for your devil side
F C
Not for your haunted life, just for you
