

**Im In Love With A Boy**  
**Foxy Shazam**

A rare b-side only played once.

Notes:

The **C,C#,D** bits are played like a regular A chord, only on the 5th, 6th and 7th frets. The twiddly section after the first chorus is played on the first two strings, so for instance the G5 is just strings 1 and 2 played on the 3rd fret.
