

**A Love Worth Keeping**  
**Frank Turner**

*Intro: E E E E7 (4x)*

**E**

Rise in the morning at sunrise

**Dsus2**

Strangers around me sleep soundly at rest

**E**

Phones and computers become me

**Dsus2**

Signals stretch back to the lands that I've left

**F#m**                      **Dsus2**

Oh in the quiet times

**Hsus4**                                      **Dsus2**

Count up the things that I love

**F#m**                                      **Dsus2**

Slip through the road lights

**Hsus4**                                      **Dsus2**

The trail of wandering back

**E**

Left you while you were sleeping

**Dsus2**

Left you the warmth in the bed, where I lay

**E**

You left me a love worth keeping

**Dsus2**

You left me a diary to count off the days

**F#m**                                      **Dsus4**

And so in the quiet times

**Hsus4**                                      **Dsus2**

I save the things that I've lost

**F#m**                                      **Dsus2**

And slip through the road lights

**Hsus4**                                      **Dsus2**

And wonder how I came to this

**A**

**E**

I guess you never know

**F#m**

Lost until you have something to lose

**Dsus2**                                      **E**

Choice until you have something to choose ... Choose

-SOLO-

**F#m**                                      **Dsus2**

So give me my quiet times

Hsus4

**Dsus2**

To mourn for the things that I ve lost

**F#m**

**Dsus2**

And find me on the road lights

Hsus4

**Dsus2**

Counting the miles and the cost

**A**

**E**

So I never knew

**F#m**

Lost cos I had nothing to lose

**Dsus2**

Choice cos I had nothing to choose

**A**

But all the things you do

**E**

The way that you close your door

**F#m**

The way that you guard your shore

**Dsus2**

**E**

**E**

Darling, I m coming home ... soooooooooon
