Rivers
Frank Turner
Chords for Rivers by Frank Turner, tidying up some mistakes I found in others...
Intro:
E D/C # G/A E (*2)
Verse 1:
   Е
Our history runs down our rivers
              C#
Down our rivers to the sea
Reminds us of the things that matter
                  C# E
Home and heart and history
And all our sins will be forgiven
              C#
Washed away to set us free
By the rivers that run through our homesteads
                 C# E
By myth and modal melody
Chorus:
I traced these rivers from the cities to the seas
To remind me of what I already know
I traced the shorelines through a thousand estuaries
To remind me an island is my home
An island is my home
Play intro:
E D/C# G/A E (*1)
```

Verse 2:

I travelled far across this country Northumberland to Southern Downs I wandered up the rolling Humber And down the Thames to London town Countless lives were lived and lingered In the Cotswolds and the Fells And left a tapestry called England Of life and those who lived it well Chorus

Play intro:

D/C# G/A E (*4)

Verse 3:

Around here the sky s a little closer A little closer to the ground It s hard for someone to get lost here Harder still to get found Though I ve seen a thousand rivers From the Mississippi to the Rhine The only place I d lay my hat down Is by an English riverside

Chorus

F#

I traced these rivers from the cities to the seas

To remind me of what I already know

I traced the shorelines through a thousand estuaries

To remind me an island is my home

An island is my home

Hmm hmm hmm

So place your trust in to the sea

It s kept us safe for centuries

It shapes our shore and steadily

It s care has brought us calm

And when I die I hope to be

Buried out in English seas

So all that then remains of me

Will lap against these shores

Til England is no more

```
Play intro:

E D/C# G/A E (*1)

Hope you enjoy :-)
```

Hope you enjoy :-)
