Honours
Franklin Fernandes

[Verse]
C
You’re still on my mind 24 hours
                                                            G
Is it still real or it’s a bad dream
C
I wish I could rewind the time and save you
I cry inside but just can’t show it
G
still

[Pre-Chorus]
Dm   **G**   **Am**   **C**
Wash away this fear it’s important
Dm   **G**
You said you would be back
Am
intime
Dm   **G**   **Am**   **C**
Dread me erase me horizontal
Dm   **G**
Have gone blind I can’t see
                                        Am
anything this time

[Chorus]
                                        Dm
Surrender my honours
                                    Am
Surrender my honours
                                    G
Colded in this rusty cage, In this
F
rusty cage
                                Dm
Surrender my honours
                                Am
Surrender my honours
                            G
For the time we spent
                            F
For the time we spent

[Verse 2]
C

The cliff inside your colours was so anxious
The truth inside that cut it down
G
so deep
C
scars were bleeding but you
pretended to be normal
                                                          G

I wish I had some to set you free

[Pre-Chorus]
Dm   **G**   **Am**   **C**
Wash away this fear itâ€™s important
Dm   **G**
You said you would be back
Am
intime
Dm   **G**   **Am**
Iâ€™d erase it and do anything I
            C
could
Dm   **G**
Have gone blind I canâ€™t see
                              Am
anything this time

[Chorus]
                                    Dm
Surrender my honours
                                      Am
Surrender my honours
                                    G
Colded in this rusty cage, In this
F
rusty cage
                              Dm
Surrender my honours
                              Am
Surrender my honours
                        G
For the time we spent
                              F
For the time we spent

[Bridge]
                              Am   **G**
You were so brave but I wonâ€™t see
        F
you around
                              Am   **G**

Part of me is caged but itâ€™s time
                F
to let it out

                                      C
Had you told me the pain we
G   F
would have figured it out

                                Am
Then now itâ€™s the tempo
G   F
changing crowns

[Chorus]
                          Dm
Surrender my honours
                          Am
Surrender my honours
                      G
Colded in this rusty cage, In this
F
rusty cage
                      Dm
Surrender my honours
                      Am
Surrender my honours
                  G
For the time we spent
                    F
For the time we spent
