

Done Done
Frankmusik

My first tab..about time i did some work around here.
This is a beautiful song with great vocals...
It instantly captured my attention the first time i heard it

- Asus is played : 000230

Asus

Tell me are you better?

A

Now you put your life on hold

Asus

I can t make it better

F#m

Cause this story s getting old

Bm

And you took the only part of me

F#m

And made it into misery

Asus

Now I m left in the cold

A

While this story s getting old

Chorus:

Asus

Though I m done (done done done done...)

A

And even though I m not sold (sold sold sold sold...)

D

Asus

You re always laying low (low low low low...)

Asus

How could I let you go (go go go go...)

Asus

A

Did you get a new me, or something not quite the same?

Asus

F#m

I know that it s been months, but I hope that this will sit in vain

Bm

F#m

And a million times I m told that my story s getting old

Asus

But tell me are you better?

A

Now your new life starts to unfold

(Chorus)

Asus **A**

I know I sort of pushed you away

Asus

F#m

But even if I had enough time I doubt you would have stayed

Bm

F#m

You think you've seen this once and a match will lead away

Asus

A

But then he won't make it better on any note he plays

(Chorus x2)

I'm slightly unsure about the last three lines (But even if I....on any note he plays)

Will someone reassure me?

Thanks.
