C

My friend was always down

E

So I took him up to this pretty old town

Am

Where the cornfield landscapes

Eased the heartache

F

I showed him around

G7

Everything weâ€™ll ever know?

C

My heart is pure and gold

E

We sat and watched â€˜till the night turned cold

Am

And the wind and the trees

Close memories

F

Of boredom and fears

G7

Everything weâ€™ll ever know?

Am

This is not the start

Em F

Please donâ€™t leave me hanging in the dark

C G7

Oh oh

Am

This is not goodbye

Em F

Please donâ€™t see the terror in my eyes

C G7

Oh oh

C

My life is upside down

E

And Iâ€™m starting to twist

Whether Iâ€™d stick around

Am

For a little longer

And things might change

F

Then again they might not

G7

Everything weâ€™ll ever know?

C

My heart is pure and gold

E

We sat and watched â€˜till the night turned cold

Am

Like the arms of this chair that Iâ€™m sitting in

F

I showed you around

G7

Everything weâ€™ll ever know?

Am

This is not the start

Em F

Please donâ€™t leave me hanging in the dark

This is not goodbye

Please donâ€™t see the terror in my eyes

And everything we say, everything we do
