

**Love Me Like There's No Tomorrow**  
**Freddie Mercury**

**Bm**                      **Em**                      **A**                      **D**  
You had to kill the conversation, you always had the upper hand  
**G**                                      **Dadd9**  
Got Caught In love and stepped in sinking sand  
**A**                                      **D**  
You had to go and ruin all our plans  
**F#**                                      **Bm**  
Packed your bags and you're leaving home  
**D**                                      **A**  
Got a one-way ticket and you're all set to go  
**C#m**                                      **F#**  
But we only have one more day together, so

[Refrão]

**B**                                      **D#m**      **E**  
Love me like there's no tomorrow  
**C#m**                                      **F#**  
Hold me in your arms tell me you mean it  
**B**                                      **D#m**                      **E**                      **C#m**  
This is our last goodbye and very soon it will be over  
**C#m**                                      **F#**                      **B**  
But today just love me like there's no tomorrow

**Bm**                                      **Em**                                      **A**                                      **D**  
I guess we drift alone in separate ways, I don't have all that far to go  
**G**    **Dadd9**      **A**    **D**  
God knows I learnt to play the lonely man, I've never felt so low in all my life  
**F#**    **Bm**                      **D**    **A**  
We were born to be just losers, so I guess there's a limit on how far we go  
**C#m**    **F#**  
But we only have one more day together, so

**B**                                      **D#m**      **E**  
Love me like there's no tomorrow  
**C#m**                                      **F#**  
Hold me in your arms tell me you mean it  
**B**                                      **D#m**                      **E**                      **C#m**  
This is our last goodbye and very soon it will be over  
**C#m**                                      **F#**                      **B**  
But today just love me like there's no tomorrow
