I m going to need to know my way back home

When my daddy told me about the birds and the bees  
He said love is best considered from a distance of centuries  
I thought we were making out but we were making history  
Don t fall in love til I m back in town

Well now I ve seen the sun rising over the Michigan Lake  
I ve seen Aurora Borealis, I ve seen Polar bears mate  
But I ve never seen you naked don t tell me I m too late  
Don t fall in love til I m back in town

I m learning the ropes for you baby  
I m turning over every stone  
Because one of these days pretty baby  
I m going to need to know my way back home

**D**                    **C**            **G**    End on **G**
