

**Dark Trance**  
**Free Energy**

**A** **D**  
down on video street  
**E**  
night hearts beat  
**A** **D** **E**  
where the fever s burning on  
**A**  
so come on  
**D**  
just be my sis  
**E**  
one last kiss  
**A** **D** **E**  
cause our lips are made with glass  
**A** **D** **E**  
they re ready to broadcast rebel trash

**A**  
but if you wait too long  
**F#m**  
keep telling yourself  
**D** **E**  
that moment has already passed  
**A**  
you re gonna miss that song  
**F#m**  
you might never meet that girl  
**D**  
then you blink oh  
**E** **A** **F#m** **D**  
and that night is over too fast  
**E** **A**  
you re making love to the past

**A** 2x

(verse, same as above)  
kid, the love that we got  
the light we re on  
burns bright tonight, come on  
we belong to something we feel  
but we never can see  
do you know that we re always free?  
that s how we re supposed to be

(Chorus, same as above)  
but if you wait too long  
keep telling yourself  
that moment has already passed  
you might miss that song  
you may never meet that girl  
then you blink oh  
and that night is over too fast  
well don't you want it to last?

**A** **F#m**  
oh the sun is going down  
**D**  
the night is coming round  
**E**  
there ain't a single sight nor sound  
**A** **F#m**  
and oh the feelings coming on  
**D**  
the city lights are gone  
**E**  
the fever's gonna stay till dawn

**A** **D** **A** **E**  
oh woah, woah, woah  
**A** **D** **A** **E**  
oh woah, woah, oh

**A**  
do you love her?  
**D**  
do you wonder  
**A** **E**  
why the starship shines above?

**A**  
do you love her?  
**D**  
do you want her?  
**A** **E**  
have you ever had enough?

(repeat as above for rest of song)
