I noticed that no one had made an effort to tab this song, so it thought I might as

well have a go, Iâ€™ve only heard it a few times, but I think itâ€™s quite accurate. The only bit Iâ€™m not sure about is the Middle 8, it sounds ok but it may not be what they play. Some of the words are missing because I canâ€™t make out what they say.

Any suggestions & comments are always welcome @ basket.case.24@gmail.com, if anyone finds out the missing words please e-mail me them, so I can update this tab.

Thanx.
