Record Player
Freeman Dre & The Kitchen Party
[Intro]
D A Bm G D A D A
[Verse]
                F#m
I had record player that played the blues
and front porch where I'd get my daily news
they say faith that s believing when you aint got any proof
But I had a record player that told the truth
[Verse]
                             F#m G
I have a good Dad. When I was 12 years old
He gave me Harvest, Blonde on Blonde, and Rubber Soul
He said "here, this is some rock n roll that helped me in my youth―
He had a record player that told the truth
[Chorus]
   F#m
                G
I'd listen to the songs that I heard
I found religion and wisdom in the words
                                 \mathbf{Bm}
On every crackle of vinyl when the needle hit the groove
                  A D A
I had a record player that told the truth
[Verse]
                       F#m
I had a girlfriend, she liked the Band
                        Α
We'd go to her mom's place, she'd take my hand
                                \mathbf{Bm}
And lead me up the fire escape and slow dance on the roof
She had a record player that told the truth
[Instrumental]
