Interlude 2: [**Dsus2 - C - Am**] then, [**Dsus2 - Am - C**]

Verse 3: [use verse 1 chords]

After months of grieving, fuck the grief I m leaving

Will you leave with me?

The blood loss, the towering cost

Mouth to mouth, tongue to tongue

The lick brings warm the talent taste

I can t correct myself, convince you

That there s no-one else in volume, good news

If you want a safe, you don t want me

Interlude 3: [use Interlude 1]

Chorus 2: [use chorus 1 chords]

It s not the answer that s taken plaster of shattered bone

What do you need, what do you need from me

It s not the answer to the cancer like the cold

What do you need, what do you need from me?

It s not the answer, I m just begging to be told

What do you need, what do you need from me

If I had the answer, write a book of what I know

What do you need, what do you need from me?
