I just don t understand  
lyrics

Verse 1

I remember when, nothin made any sense  
Everything ya said, never clicked in my head  
Never really cared, I didn t ever know  
But if I glared, your eyes would roll

### Chorus 1

Everything you say, that I just don t understand  
Nothing went my way, and I just don t understand  
I know what your gonna say, and I just don t understand  
But I ll be okay, and I ll never understand

### Verse 2

I still don t know, if anything makes any sense  
I really hope so, cuz I don t understand  
I hope that soon, something will crack  
And then, everything will be back.

### Chorus 2

Everything you say, that I just don t understand  
Nothing went my way, and I just don t understand  
I know what your gonna say, and I just don t understand  
But I ll be okay, and I ll never understand

### Interlude

### Chorus 3

Everything you say, that I just don t understand  
Nothing went my way, and I just don t understand  
I know what your gonna say, and I just don t understand  
But I ll be okay, and I ll never understand
