

Youre Too Weird
Fruit Bats

A really good, simple song. One of their best.

You re Too Weird
Fruit Bats

G **Em** **Bm**
Somebody needs to tell me what I m supposed to do
G **Em** **Bm**
They say that I m not supposed to be in love with you
C **G**
They say that you re too weird for me
Em **C**
And you ll leave eventually
G **Em** **Bm**
But I m the only one who s ever believed in you
Somebody tell me what I m looking to fake
Everyone s sayin that I m just a part of your phase
They say you d leave me if you could
As soon as the going s no good
And I m the only one who ever believed in you
(Guitar Solo over chords)
Somebody tell me who else I coulda had
I don t look much but I love you pretty bad
They say that you won t treat me right
And you re gonna up and go to the night
And I m the only one who ever believed in you
C **G**
So I guess I ll ask you if I will
Em **C**
Are you gonna run for the hill?
G **Em** **Bm**
And I m the only one who ever believed in you
I m the only one who ever believed in you
I m the only one who ever believed in you
Yes I m the only one who ll ever believe in you
G **C**
Cuz I m the only one who ever believed in you (x3)
G **C**
Who ever believed in you (x4)
