Fugazi

Steady Diet of Nothing

1993

This is always a fun song for me to play. It s slow, but fast, if you catch my drift.

It s in standard tuning: EADGBE

The guitar is mainly rhythm, however, during the verses, there are harmonics found on

B string.

If you don t know how to make a harmonic, you basically put your finger over a fret, DO

PRESS DOWN, but release once you have hit the string.

Intro/Chorus:

```
e:-----|
B:-----|
G:999999999999-----|
D:xxxxxxxxxxxxxx-9999-----|
A:777777777777-xxxx-----|
E:-----7777-----|
```

Verse(Harmonics)

```
e:-----|
B:7-54545-7-54545-7-54545-7-54545-----|
G:-----|
D:-----|
A:-----|
E:-----|
```

Last Chorus (Ian plays a little differently, and if you know your octives, I suggest you look at the chord progression I give, as well as this note: if you know what an octave is and I just give you the chord name, you ll need to go to the 12th fret area and find octave there.)

Chord Progression:

A to G# to A to B to C# to D(do a hammer on and pull off for both C# to D) to A to G#

That would repeat during the chorus.

After that, it s a verse again, but this time the rhythm guitar will do an E chord.

if you have a wammy on your guitar, it would make it sound similar to the song itself.

*. YOU MUST PUT THE NAME OF THE SONG IN THE SUBJECT BAR! My name is Jeremy also wrote the Little Debbie Chords here). Thanks!
