

**All Those Friendly People  
Funeral Suits**

[Intro]

A, D, F#m, D (x2)

[Verse]

**A**

Count back anesthetize  
Colours burnt into my eyes

**D**

Life for you is shades of grey  
Help me, help me find my way

**F#m**

Lost, lost, never found  
Hide your secrets, settle down

**D**

I am young and I am naïve  
Tell me something I will believe

**A**

Take me, take me far away  
From this city's soul decay

**D**

Hid away 'til I was eighteen  
Only saw colors on a TV screen

**F#m**

Skinny jeans and sunglasses  
A fashion statement for the masses

**D**

What you're doing makes me sick  
Overhyped and generic

**A**

Shine, shine, like the sun  
Spread your warmth through everyone

**D**

I asked you why people die  
You said we all have a design

**F#m**

Slide, slide into the sea  
Landslide coming down on me

**D**

I said I was into you  
You said you were into me

[Chorus]

**A**

You never answer on the phone

**D**

With your nicotine lips and your heart of stone

**F#m**

I look for you by the underpass

**D**

Looks like this love wasn't meant to last

**A**

You said you reap just what you sow

**D**

So tell me, where does your garden grow?

**F#m**

You said in time the pain would pass

**D**

Looks like the end is here at last

**A**

Burn, burn, like a star

Burn a hole in every heart

**D**

Strung out on a trail of blood

Who knew the stars were not enough

**F#m**

Smile, smile, if you can

If you can't I'll understand

**D**

See these stiches in my eyes

Smash computers, kill rockstars

**A**

Purge the past and waste my mind

Leave no scent or trace behind

**D**

One day when you bury me

When I wake up what will I see?

**F#m**

Down, down, underground

Dig for fire, dig for sound

**D**

What is on the radio

Cause I would like to say hello

**A**

Crawl, crawl, through the dirt

Jesus, show us what you're worth

**D**

Can't you just send us a sign

Tell us all that we're doing fine

**F#m**

Nights for sitting in the dark

Days for lying in the park

**D**

Wake me up from my sick dream

A requiem for this dead scene

[Chorus 2]

**A**

You never answer on the phone

**D**

With your nicotine lips and your heart of stone

**F#m**

I look for you by the underpass

**D**

Looks like this love wasn't meant to last

**A**

You said you reap just what you sow

**D**

So tell me, where does your garden grow?

**F#m**

You said in time the pain would pass

**D**

Looks like the end is here at last

A, D, F#m, D (x2)

**A**

Count back anesthetize

Colours burnt into my eyes

**D**

Life for you is shades of grey

Help me, help me find my way

**F#m**

Mother can't you help me now

Cause I've been drowning in the sound

**D**

Lying on the motorway

Writing songs and wasting away
