

## Barricades

Fyfe Dangerfield

Bit of a dirge, but like all Fyfe's songs - deceptively simple. In other words, it's easy enough to get the chords out but making it sound good is hard indeed.

**D** **Bm**  
When love is a crippled dream  
When love is a crippled dream

**F#m**  
That's where you'll find me

**A**  
Saying I'm not afraid

**D** **Bm**  
And when love is a barricade  
When love is a barricade

**F#m**  
That's where I'll find you

**A**  
Saying we're already made

**G** **Bm**  
I want to be near you all day  
I want to be near you all day

**G** **Bm**  
I want to be near you all day

**C** **Bb**  
Don't go away

**D** **Bm**  
When love is a howling face  
Trapped in a hollow place

**F#m**  
I won't surrender

**A**  
or give you up

**D** **Bm**  
So don't put up these barricades  
We don't need barricades

**F#m**  
We have each other

**A**  
And that won't fade

**G** **Bm**  
I want to be near you all day  
I want to be near you all day  
I want to be near you all day

**C**                    **Bb**

Don't go away

**Fm**                                    **Em**                    (Strictly: **Fm Fm+G** x4    **Em+F# Em** x4)

To the dark, to the smoke

**Gm**

To those downstairs

No fares

**G**                                    **Bm**

I want to be near you all day

**G**                                    **Bm**

I want to be near you all day

Stop! Outro

**C**                                    **Bm**

With tunes/noodling or oohs over the top as you like
