

Monster

Gabbie Hanna

[Verse 1]

Em **Am**
Laying in the bed that I made all alone
Em **D**
Guess I m not surprised honestly
Em **Am**
Praying in my head that you stayed and I hope
Em **D**
You ll miss me eventually

[Pre-Chorus]

Am **Em**
People wanna talk when I m not around to hear
Am **Em**
Really, they don t know what I m made of
Am **Em**
People keep on walking so far away from here
Am **Em**
Clearly I m the one they re afraid of

[Chorus]

Am Em Am Em
One after another, they always come and gone
Am Em Am Em
So what if I m the monster that s been here all along?
Am D
They re dropping like flies whenever I m around
Am Em
So used to goodbyes, there s comfort in the sound
Am Em Am Em
Maybe I m the monster that s been all here along

[Verse 2]

Em Am
Bending till you break and you can t take anymore
Em D
I m not worth the trouble it seems
Em Am
I would say you re wrong, but I ve been here before
Em D
You won t be the last one to leave

[Pre-Chorus]

Am Em
People wanna talk when I m not around to hear
Am Em
Really, they don t know what I m made of

Am **Em**
People keep on walking so far away from here

Am **Em**
Clearly I m the one they re afraid of

[Chorus]

Am **Em** **Am** **Em**
One after another, they always come and gone
Am **Em** **Am** **Em**
So what if I m the monster that s been here all along?
Am **D**
They re dropping like flies whenever I m around
Am **Em**
So used to goodbyes, there s comfort in the sound
Am **Em** **Am** **Em**
Maybe I m the monster that s been all here along

[Bridge]

Em
You re safe here
D
No need to run and hide
Am **Em**
Underneath your cover now
Em
Don t be scared
D
There s nothing left inside
Am **Em**
Since you ate my heart out

[Chorus]

Am **Em** **Am** **Em**
One after another, they always come and gone
Am **Em** **Am** **Em**
So what if I m the monster that s been here all along?
Am **D**
They re dropping like flies whenever I m around
Am **Em**
So used to goodbyes, there s comfort in the sound
Am **Em** **Am** **Em**
Maybe I m the monster that s been all here along
