

Burn For You
Gabe Dixon

Tuned half step down

C#m - A

Six feet in on the drowning side of the waters edge we go
I won't be satisfied till we're lost in the undertow

E - B# - A

E - C# - A

Oh I know, with you I can't let go

E - A - E - A - C#m - B# - A - E - F# - B#

I crawl into bed in the dead of the night
You're so far away as you lay by my side
As I close my eyes I can't hide from the truth
I burn, I still burn for you

C#m - A

Those angry words they hang above us like a cloud
Your fiery kiss it is still with me now
Oh I know, with you I lose all control

E - A - E - A - C#m - B# - A - E - F# - B#

I crawl into bed in the dead of the night
You're so far away as you lay by my side
Here in the dark there's a spark I'll never lose
I burn I still burn for you

Bridge: **F# - E - B# - A - B# - A - B#**

E - A - E - A - C#m - B# - A - E - F# - B#

I crawl into bed in the dead of the night
You're so far away as you lay by my side
One thing remains after all we've been through
I burn I still burn for you

C#m - A

Just let me know that you feel like I do
Cause I burn, I still burn for you
