

On A Day Just Like Today
Gabe Dixon

Intro: **F - C - G**

C - A - Em - Am

Do you remember when you pushed your dreams aside
The road became so narrow, used to seem so wide
Afraid of what they d say, afraid to lose it all
You kept it all inside these blue sky painted walls

F - G

where was I when you decided

F - C - G

on a day just like today, maybe we could see a change
doesn t have to be the same as it s always been
still gotta write the rest of our history, we can t look the other way,
On a day just like today

C - A - Em - Am

Your eyes are telling me the things you haven t said
Should I just pretend that maybe it s all for the best
If you traded in your fire for something watered down
Help me recognize just where the flame is now

F - G

What better time to decide it

F - C - G

On a day just like today, maybe we could see a change
Doesn t have to be the same as it s always been
still gotta write the rest of our history, we can t look the other way
On a day just like today (x2)

Em - C - F - G

We can t live like this, well take the hammer to these words
As the colors shine I tell you why
Cause when you re too far gone, you think you re better off alone
well let me prove you wrong, Oh

F - C - G

On a day just like today, maybe we can see a change
it doesn t have to be the same as it s always been
still gotta write the rest of our history, we can t look the other way
(x2)
On a day just like today x4
