Across the sea

We re both fixed in a dream

There s an island just like this

A person just like me

You couldn t conceive

The possibility

That though he loves all of us

He s given up on me

I got this feeling that we re dead

I got this feeling that we re dead

And there s nothing more $\rm X4$

This is alive
The dead man
Posses me
And there s a shortens of breath
There s a weakness of me

I got this feeling that we re dead I got this feeling that we re dead And there s nothing more X3

But what if we re dead But what if we re dead And there s nothing more Yeah there s nothing more
