

Tell Me What You Dream
Gabrielle

i decided to write the chords for this song because i LOVE IT and there didn t seem to be any chords for it.
i think they are accurate but feel free to change chords whilst playing if you think they sound better :)

NO CAPO!!

F#m **E**
She turned the key, opened the door

F#m
Was he there she wasn t sure

E
She didn t want to fight no more
She had good intentions

F#m **E**
In that moment face to face

F#m
She saw the look upon his face

E
She held him in a tight embrace
There was warm affection

F#m
Took a while before she spoke

E
There were things she had to know

F#m
Compose herself and she said

D
Baby

[Chorus:]

A **E**
Tell me what you dream, what you see

F#m **D**
Tell me how you feel, oh yeah

A
Tell me what you dream

E
Will you share it all with me

F#m
What you dream

D
Baby you can talk to me

(then it just goes through the same pattern)

They agreed to meet halfway
They would take it day by day
He didn't want to lose her twice
That would cut him like a knife
He decided then and there to reveal his inner fears
He'd always loved her from the start
It was time to give his heart

Took a while before he spoke
There were things he had to know
Compose himself and he said
Baby

[Chorus]

Tell me what you dream
What you see
Tell me how you feel, oh yeah

[Chorus]
