G **D**
Sit back, you don t have to work so hard
G **D**
It makes me tired to watch you try
G **D**
Relax, you already played your cards
G **D**
And I know which ones are a lie

[Riki]

G
It makes me really sad to see
D
The things you think you have to be
G
Just to be enough for me
A
When you already are

[Both]

G
Why can t you just look at you
D
In the same way that I do?
G
Through all that s false and all that s true
A **G D**
I like you, as you are

[Kate]

I know that you can get sad sometimes
I see it mostly when you smile
Let go of all of your supposed crimes

Just be with me for a while

[Riki]

I know this may be hard to hear
But all your tricks are really clear
I see right through your slick veneer
To the secret life you hide

[Both]

Why can't you just look at you
In the same way that I do?
Through all that's false and all that's true
I like you as you are

Bm

Take me in

A

Believe me when I say

G

You're more than just okay

A

G D

You're perfect as you are
