Every Now And Then - Garth Brooks (Mondlock/Brooks)

The notes between () are actually played, but it s easier and sounds more identifiable if you leave them out. Maybe it s even a second guitar...

```
|-----2-----2-----|-----3-----3-----|
|------(3)3-----3------(0)-|------(3)----3-----3--|
|-----0h2-----0-----|-----0h2----(2)--0-----|
|-0-----4-2-0-----|-0-----4-2-----|
|-----|-----0-----|
|-----|-----3-----3-----|
```

On the verses you could try to find any picking that sounds right. Maybe I ll try to figure out the verses sometime too, but this will do for now, I d say.

The chords are for
the verses:

C C/F# F F/A C C/E F F/G
Am C/A F C/F# Dm C/F# F Gsus4

in between verses and chorus:

C C G/C#

the chorus:

Am Em7/B Emadd9 C F G
Am Em7/B Emadd9 C Csus2 Gsus4 G

Every Now And Then

I walked down to the park last night
Warm breeze stirring up a soft moonlight
And my mind started drifting way back when
Yes I do think about you every now and then

The other day I saw a car like you used to drive
I got a funny feeling down deep inside

And for the briefest moment I felt a smile begin
Yes I do think about you every now and then

Chorus:

I love my life and I d never trade
Between what you and me had and the life I ve made
She s here and she s real, but you were too
And every once in a while I think about you

I heard a song on the radio just yesterday
The same one you always asked me to play
And when the song was over
I wished they d played it again
Yes I do think about you every now and then

Repeat Chorus

I ve been layin here all night listenin to the rain
Talkin to my heart and trying to explain
Why sometimes I catch myself
Wondering what might have been
Yes I do think about you every now and then

Every now and then
Every now and then
