Night Will Only Know Garth Brooks

Dm

That night will live forever

Dm

Their first time to lie together

Α

Dm

They were finally where desire dared them to go

Dm

Both belonging to another

Dm

But longing to be lovers

Α

Dm

Promising each other that the night will only know

Parked on some old backstreet
They laid down in the back seat
And fell into the fire down below
But they would pay for their deceiving
For a deadly web was weaving
Why they d picked that spot that evening
Lord, the night will only know

F

Well within the innuendos

Dm

Just outside the steamy windows

F

Α

The night was shattered by a woman s scream

Dm

Motionless and frightened

Dm

The grip of fate had tightened

А

Dm A Dm A

And with trembling hands they wiped away the steam

They saw a woman pleading
Stumbling, begging and retreating
Until she became the victim of her foe
And they watched her fall in silence
To save their own alliance
But the reason for the violence
Just the night wil only know

F

And every paper ran the story

Dm

She was stripped of all her glory

F

Α

And they told exactly how the woman died ${\bf Dm}$

Abandoned and forsaken

Dm

Too many pills were taken

A Dm A Dm A

And they ruled the woman s death as suicide

Bound by their behavior
They could have been her savior
Now guilt becomes the endless debt they owe
But another crime was committed
And it s never been admitted
Have the guilty been acquitted
Lord, the night will only know
