Gary Barlow

Do you sometimes feel your life is leaving you behind **G** **D**
C **D**
With one eye closed, half a world unknown
G **D**
You want to wave for help but both your hands are tied
C **D**
You want to start again but you're just too scared

C **G** **Em** **D**
So if you wanna find out, just go ahead and try now
C
If the thought is terrifying
The risk is really frightening
D
And your only fear is falling
You should leave without a warning and
C **G**
Jump, fly
Em **D**
Let your feet leave the ground, step into the sky and
C **G**
Jump, high
Em
If you want a better view,
D
Then another life is calling you to
C **G**
Go ahead and try now
Em **D**
Or how you gonna find out
C
If life has got predictable
Go on do something wonderful
D
The first step is the hardest
G
Youll be safe without a harness so jump

G **D**
You never stand to win if you're not in the race
C **D**
When voices cheer, youll be far from here
G **D**
And maybe once or twice you'll fall flat on your face
C **D**
But when you move on youll be twice as strong

C **G**
Go out on a limb now
Em **D**
Throw caution to the wind now
C
If the thought is terrifying
The risk is really frightening
D
And your only fear is falling
You should leave without a warning and

C **G**
Jump, fly
Em **D**
Let your feet leave the ground, step into the sky and

C **G**
Jump, high
Em
If you want a better view,
D
Then another life is calling you to

C **G**
Go ahead and try now
Em **D**
Or how you gonna find out

If life has got predictable
