There are two guitars in this song. Albert s is the thinner, less distorted sounding one. It almost sounds like he s using an old TubeScreamer. If you listen to the song, you ll be able to recognize each different guitar part.

There are some serious bends throughout this song, so if you have trouble bending in tune, you can slide up to the indicated fret. (i.e., in the intro sol

o, there s an 8b10, meaning bend up to the 10th fret, or a whole step. Alternati

vely, you can slide up to the 10th and back down to the 8th). Also, I ve noted underneath when a note

requires a 1/4 bend.

Also, any harmonic symbols are pinch harmonics.

Again, this transcription isn t perfect, but it s pretty close.
