C G Bb F C G Bb F
Look up I hear the scream of sirens on the wall
C G Bb F C G Bb F
I see a policeman crying in the backseat of a dying ford
C G Bb F
Hotel waiters leave the bedrooms of stars
C G Bb F
Who are far too old
C G
And no-one ever told me
Bb F C G Bb F
That I could be so cold

D Bb
Bombers fight at zero feet
Bombers fight at zero

C G Bb F (x4)

I see an old man knocked to the ground
And beaten by the vicars wife
No-one stops to help theyre far too busy
Trying to save their own lives
A tiny girl screams for mother
And wanders out into the street
I saw her going down underneath
A thousand peoples running feet

Bombers fight at zero feet
Bombers fight at zero

C G Bb F (x8)

All the nurses pulling needles from their arms
Hope it lasts all night
And all the soldiers curse the day they joined the army
And prepare to fight
In silent bars, in silent rooms, in silent cars
You hide where you can
And me I know just where you are, you see

Im a bomber man

Bombers fight at zero feet

Bombers fight at zero

C G Bb F (x4)

Bombers fight at zero feet

Bombers fight at zero

C G Bb F (repeat till fade)
