I'm Gonna Try
Gavin Degraw

```
              Bm
Im gonna try
D                                   A                                              E
Try like a mother, Ill make this one come around
                                          Bm
Sing all through the night
D                                   A                                           E
Shaking the shutters, I know shell be coming down
Bm                             D                                   A
         E
Hear the neighbors calling out names, Well I cant put up with that
                             Bm
So Im gonna try
D
Try til I get it back
```

```
A   B   D   A
```

```
A                                       B
You dont know what she means to me
        D                     A
My reality and my fantasy
A                       B
On the wave of confidence and gin
          D                         A
Like a hurricane, I come crashing in
```

```
A           B                                           D
But oh, man this thing is moving too slow
                                      A
Damn I think Im losing control
          B
Cause I just took a flight
     D                              A
To make it here tonight to say that I
```

```
              Bm
Im gonna try
D                                 A                                              E
Try like a mother, Ill make this one come around
                                      Bm
Sing all through the night
D                                 A                                             E
Shaking the shutters, I know shell be coming down
Bm                             D                                 A
         E
Hear the neighbors calling out names, well I cant put up with that
```

```
                        Bm
So Im gonna try
D
Try til I get it back

A                 B
Listen, Imma tell you once
              D                          A
From an honest guy, who has screwed it up
A                 B
Celebrate the one youre with
D                                        A
A little take and give, never hurt no one

A            B                                   D
But oh, now Im standing out in the cold
A                                            A
Trying to find the heart that got stole

            B
Cause I just took a flight
D
To make it here tonight to say that I

                  Bm
Im gonna try
D                        A                                              E
Try like a mother, Ill make this one come around
                                  Bm
Sing all through the night
D                        A                                              E
Shaking the shutters, I know shell be coming down
Bm                          D                        A
        E
Hear the neighbors calling out names, well I cant put up with that
                        Bm
So Im gonna try
D
Try til I get it back

A B D A

          A                    D
If she placed a badge
Bm
Oh no
        E                        A          D          Bm
The chances that your wasting until then
                    E
Would you, stand it?

                Bm
```

```
Im gonna try
D                                    A                                              E
Try like a mother, Ill make this one come around
                                          Bm
Sing all through the night
D                              A                                        E
Shaking the shutters, I know shell be coming down

               Bm
Im gonna try
D                                    A                                              E
Try like a mother, Ill make this one come around
                                             Bm
Sing all through the night
D                              A                                        E
Shaking the shutters, I know shell be coming down
Bm                                    D                              A
         E
Hear the neighbors calling out names, well I cant put up with that
                           Bm
So Im gonna try
A
Try til I get it back
```
