

**Just Friends**  
**Gavin Degraw**

VERSE ONE:

I saw you there last night Standing in the dark  
You were acting so in love With your hand upon his heart  
But you were just friends at least that s what you said  
Now I know better from his fingers in your hair  
I ll forgive you for what you ve done  
If you say that I m the one

VERSE TWO:

I ve had other options too But all I want is you  
Girl, your body fits me like a glove And you showered me with words of love

CHORUS:

While you were just friends at least that s what you said  
Now I know better from his fingers in your hair  
I ll forgive you for what you ve done if you say that I m the one

BRIDGE:

It s not my style to lay it on the line  
But you don t leave me with a choice this time  
Why weren t you true You know I, I trusted you

CHORUS:

When you were just friends at least that s what you said  
Now I know better from his fingers in your hair  
I ll forgive you for what you ve done if you say that I m the one  
You were just friends now I know better from his fingers in your hair  
I ll forgive you for what you ve done if you say that I m the one

I ll forgive you for what you ve done if you say that I m the one  
I ll forgive you for what you ve done if you say that I m the one  
I ll forgive you
