RADIATION - Gavin DeGraw  
-----

Tabbed by : JBW  
Song : Radiation  
Artist : Gavin DeGraw  
Album : Sweeter  
Tuning : Standard

this song was pretty hard to figure out because of the moving chords and moving bass lines.

Im not sure if he uses some inversions or not but I have the basic chords here. In the chorus The A s and D s are walking chords to the Bm or the G. It s quick You also don t need to play the D in the chorus (necessarily) . I just use it as a walking chord. :)

Listen for the changes and enjoy :)

If you want to see me play it on youtube go here! :)
