

**Give Me A Sign**  
**Gavin Mikhail**

In order to play this in the same key with Mikhail, you ll need to tune your guitar a half-step down (**D#**). Breaking Benjamin s version IS different from this one (it s significantly higher) so if you want that version, you re on the wrong page. Also, the intro I included below is just the way I like to open the song. You should do what works for you.
