If I Hang Around Gene Clark

If I Hang Around

G Am E

Your hair hangs down covers your eyes

D E

If I hang around should I sympathize

G Am E

Your hungry look that s sent to despise

) E

If I hang around should I sympathize

G Bm A

And some day you re gonna think about it some more

G Bm F#

You re gonna toss your head and remember what loving is for

The cycles you re in, detachment from what you can see If I hang around should I make you think I would leave Parafin pastel printings that you believe If I hang around should I find a future to reel

And some day you re gonna think about it some more You re gonna toss your head and remember what loving is for

Super insensitive reaching out for the sun

If I hang around should I say I ve only begun

You set a protection perceiving no wrong is meant done

If I hang around should I say you re the only one

Some day you re gonna think about it some more You re gonna toss your head and remember what loving is for
