

Long Time
Gene Clark

Long Time

D **Bm**
On the corner there are letters that illuminate the night to a glare
D **Bm**
On the streets are many faces all just looking for a place called somewhere
G **Em** **Bm** **F#m**
From the signs brightly flashing so they re ultimately clashing the a-a-air
Bm **G** **Bm** **G**
To a long time, love is such a long time
Grinnin words linked with changes leading far beyond the last unaware
Attitudes to deal with strangers and the dangers in the longing to care
From the information vendor and rich educated splendour they stare
To a long time, love is such a long time

D
Such a long time, such a long time

From the moment which is timeless and the fact there is so much we can share
To a long time, love is such a long time

Bm **G**
Love is such a long time.

Ps: Sure this is only a Gene Clark written song for the band Rose Garden
