E **B**
I saw your picture and i don t know where it stops
C#m **G#m**
standing in a parking lot, kicking up rocks and i
B **E**
and being a general, true
G#m **F#**
making a face give any too
E **B**
your sister never had another normal year
C#m **G#m**
your little brother had a terrible fear
B **E**
and i know and if you re coming back from your den
G#m **F#**
I saw your friends at your building and they all said

E **B** **F#** **F#**
Oh hey ho ooh hey oohoo
E **B**
you could all see, coming alone
F# **F#**
nobody could get through

And when they said your back to Boston
Your best friend called she said ...??
But it, it was nothing compared to this now

I thought I called him underestimating everything
I was exhausted from investigating every single
monochrome of bitterness and nothing less than levitating
every day s a diamond doesn t everyone s a wolf in vain

Oh hey ho ooh hey oohoo
You could all see, coming alone
nobody could get through

G#m
You know you make it so hard on yourself

E

You are the ghost of a team

G#m **E**

i recognize it cause i do the same thing

G#m **F#**

given that what everybody knows

G#m

I don t know anybody else i could

E

give up so much so fast

G#m **E**

you used to whistle in a dirty old drunks past

G#m **F#**

here they go, they go

E **B** **C#m** **G#m**

You always want to know if i hear where you go,

B **E** **G#m** **F#**

but i don t hear anything anymore

Oh hey ho ooh hey oohoo

E **B** **F#** **F#**
