

In The Rapids
Genesis

The original song is played on a 12-string guitar.

[Intro]

B E B A

G#m
F#sus2
D7M

[Verse 1]

Asus2 **B**
Moving down the water

G#m
John is drifting out of sight

F#sus2
It s only at the turning point

D7M
That you find out how you fight

Asus2
In the cold, feel the cold

B **G#m**
All around

F#sus2
And the rush of crashing water

D7M
Surrounds me with its sound

[Verse 2]

Asus2 **B**
Striking out to reach you

G#m
I can t get through to the other side

F#sus2

When you're racing in the rapids

D7M

There's only one way, that's to ride

Asus2

B G#m

Taken down, taken down by the undertow

F#sus2

I'm spiraled down the river bed

D7M

my fire is burning low

[Verse 3]

Asus2

B

Catching hold of a rock that's firm,

G#m

I'm waiting for John to be carried past

F#sus2

We hold together, hold together

D7M

and shoot the rapids fast

Asus2

B

And when the waters slow down,

G#m

the dark and the deep

F#sus2

Have no one, no one, no one, no one,

D7M

no one left to keep

[Outro]

Asus2

B

Hang on John,

G#m

we're out of this at last

F#sus2

Something's changed, that's not your face,

D7M

it s mine, it s mine!
