```

```
 Fm7                           F#maj7
All the things that happened to me

C#maj7
      Or all that I have seen

  F#maj7         Fm7          F#maj7         C#maj7
A world full of people, their hearts full of joy

F#maj7     Fm7         F#maj7      C#maj7
Cities of light with no fear of war

   F#maj7         Fm7          F#maj7   C#maj7
And thousands of creatures with happier lives

    F#maj7        Fm7          F#maj7          Fm7       C#
And dreams of a future with meaning and no need to hide

(n.c.)
      Oh, keep it dark

|:C      :|

   F#                  F        Bbm    G#       C#
It seems strange to have to lie about a world so bright

   F#                 F        Bbm    G#         C#
And tell instead a made-up story from the world of night

  C#maj7                   F#maj7        C#maj7
I wish, that I could really tell you

 Fm7                           F#maj7
All the things that happened to me

C#maj7
      Or all that I have seen

  F#maj7         Fm7          F#maj7          C#maj7
A world full of people, their hearts full of joy

F#maj7     Fm7         F#maj7      C#maj7
Cities of light with no fear of war

   F#maj7         Fm7          F#maj7   C#maj7
And thousands of creatures with happier lives

    F#maj7         Fm7         F#maj7          Fm7       F#maj7
And dreams of a future with meaning and no need to lie

   Fm7      F#maj7
No need to hate
```

```
   Fm7       C#
No need to hide
