Many Too Many
Genesis

```
  C#m          G#m                      F#m       G#m
     Many too many have stood where I stand

  C#m          G#m                      F#m       G#m
     Many more,  will stand here too

   F#                       C#
     I think what I find strange is the way

        D#m               G              F#
     You built me up and knocked me down again

  C#m          G#m                   F#m       G#m
     The part was fun but now it s over

  C#m          G#m                   F#m       G#m
     Why can t I just leave the stage?

   F#                    C#
     Maybe that s because you securely

      D#m                  G               D
     Locked me up and threw away the key

        G   D                   G
     Oh mama,  please would you find the key

   D             G   D                 G              D    F#m
     Oh pretty mama,  please won t you let me go free

   B                        F#m  B                    F#m     B
     I thought I was lucky,   I thought that I d got it made

              F#m      G#
     How could I be so blind?

  C#m              G#m      F#m     G#m
     You said goodbye on a corner

  C#m        G#m                   F#m     G#m
     That I thought led to the straight

   F#                    C#
     You set me on a firmly laid

        D#m                 G                 D
     And simple course and then removed the road

D               G  D                    G                  D     F#m

B                          F#m  B                     F#m       B
 I thought I was lucky,   I thought that I d got it made

            F#m      G#
 How could I be so blind?   Oh oh
