

No Worries
GentleFolk

Gentlefolk - No Worries

Verse: **D A C G**

Let me think about a summer,
one we had so much fun.
I realise there was a stunner
who you were so keen on.
We accidentally sat together
there in the burning sun.
The most beautiful weather ever,
could it have been any better?
If it was I would have told you before.

Chorus: **D G C**

It turned out to be that we had
no worries.
For you and for me, there were
no worries.
The stars shine above, seem to have
no worries.
We are young and free and
it was all so good tonight.

Verse: **D A C G**

Another day began when I was
much younger than today.
Believed in everything that has been
completely out of my way.
I didn't care about my future
or about what to say.

The most beautiful weather ever,
could it have been any better?
If it was I would have told you before.

Chorus: **D G C**

It turned out to be that we had
no worries.
For you and for me, there were
no worries.
The stars shine above, seem to have
no worries.
We are young and free and

it was all so good tonight.

Bridge: (Steffen alleine)

Sunset, breathing warm air in and out,
watching the sun going under the ground.
Got a mind full of dreams
but no doubts will stay in here.
Taking many photos to share them with you
and your friends, they will like them too.
But if not then you need to have no worries.

Chorus: **D G C**

It turned out to be that we had
no worries.
For you and for me, there were
no worries.
The stars shine above, seem to have
no worries.
We are young and free and
it was all so good tonight.
