Verse **Fm D# A#**

Well, I m sitting here
staring at the clock
and I am thinking bout the day,
I think I have to stop.

[BREAK!!!!!!] =)

And in one hour, I ll be at home again
and then in three hours, I ll be talking to strange men
And girls and boys
I haven t known before
and I will meet them then at night
at the cafÃ©
and I will look for you,
hope you will look for me, too.
Then I was walking down this road
to the bus station.
And I was day-dreaming a lot,
too much imagination.
I took out my iPod, turned the music on.
While I was waiting in the rain,
I was the only one.
I was the only one (x3)

Chorus: **A# G# D#**

Friday night, well, it was Friday night,
this is all I wrote before we started to fight.
Silently I was walking by your side
but you didn t even recognize that it was me that night.

Verse **Fm D# A#**

So I was waiting in the cold for the opening,
ten minutes later I went in to see heads banging.
Green lights, candles, you sat in front of me,
sometimes you looked into my eyes, but you really couldn't see
those girls and boys,
I haven't known before
and I met them and you at night
at the café
and I looked for you,
that's what you didn't do.

Chorus: **A# G# D#**

Friday night, well, it was Friday night,
this is all I wrote before we started to fight.
Silently I was walking by your side
but you didn't even recognize that it was me that night.

Solo [Gib alles!]

That I was me that night (x2)
That it was me that (x3)

Chorus: **A# G# D#**

Friday night, well, it was Friday night,
this is all I wrote before we started to fight.
Silently I was walking by your side
but you didn't even recognize that it was me that night.
