

**It No Pretty  
Gentleman**

Gentleman Reggae!!!

Very easy to Play.

Play the whole song: **F / C / Dm / Am**

It no pretty out there at all  
So many rises so many fall  
So many standing in the middle of despair  
Nobody cares nobody sees it clear

Them blinded by society  
And now them can't see the quality  
Me see them limited capacity  
Verbal verbosity  
And them ignorant atrocity  
Cant you see its right there

So tell me what a cause so much damn poverty  
Tell me why the people them a lose gravity  
It caused by a handful of minority  
Who try to pull down the majority

Well this is up to you and me  
Make we sit down and talk bout long trinity  
Sit down and reason conscious levity  
Our natural ability  
Give thanks for diversity

It no pretty out there at all  
So many rises so many fall  
So many standing in the middle of despair

So tell me what a cause so much damn poverty  
Tell me why the people them a lose gravity  
It caused by a handful of minority  
Who a try to pull down the majority

It no pretty out there at all  
So many rise so many fall  
So many standing in the middle of despair  
Nobody cares nobody sees it clear  
No way, yeah

It no pretty out there at all  
So many rise so many fall

So many standing in the middle of despair  
Nobody cares nobody sees it clear, yeah

It no pretty out there at all  
So many rise so many fall  
So many standing in the middle of despair  
Nobody cares nobody sees it clear  
No way
