

**Strange Things
Gentleman**

repeat: Am|G.

I d rather be saved bye Jah Jah
Yeah yeah yeah
Than to have mankind as my savior

Dem never sees to amaze me
Strange things they bring to us
And only Jah Jah can save we
Now who else can we trust

Babylon dem words ya dem a tuff like iron
Trodding through the hills now with the powers of a lion
No looking back we pon the highway to zion
No doubt about it Jah love we a relay on
From you see me pon the subway
Everything you see me do me do it love way
I see dem going down grudge way
Iniquity can t touch we

Babylon now what me see you try to tek away Jah star
Left me to wonder who really are
For a stick a marihuana we get lock behind a bar
Jah children reputation you a scar
Smoking kills that you mark on your cigar
Dangerous like a bullet from an s-sellar
But tell me how much innocent life you tek so far
And all those victims of your wars

Question me ask so why you don t answer dis
How comes you have the youths dem turn and a twist
Have dem ina the jungle like a tarzan pon a wist
Still dem awaiting Jah wonderful bliss
Ask dem already so what left to come
We already see the destruction from your gun
Babylon upholding a falling kingdom
Still we chant down rome and beat the kette drum

Babylon dem words ya dem a tuff like iron
Trodding through the hills now with the powers of a lion
No looking back we pon the highway to zion
No doubt about it Jah love we a relay on
From you see me pon the subway
Everything you see me do me do it love way
I see dem going down grudge way
Iniquity can t touch we
