```
Cm         Fm          Gm            Cm
 somebody tell me, cause I really got to know
Cm             Fm         Gm             Cm
 I read a lot of history but this  not really sure no no
 Cm                          Fm
 why dem drop the bombs ina Arabia
                  Gm                   Cm
 why the children bought and suffer ina Africa
Cm                                        Fm
 leave us up the righteous fightin for superpower
                       Gm                    Cm
 but judgements take a fall upon dem at like real shower, mi go so den
```

[Chorus (x2)]

Verse 2:
```
Cm                                        Fm
 so you better love the little youth not terrorise dem, no no no
 Gm                          Cm
 teach the youth the truth not critisise dem, oh no no no
Cm                  Fm
 open up your eyes and realise that
            Gm                         Cm
```

```
                       you are fi keep you are fi care you are fi guide dem,
                       Cm                                Fm
 don t you know:  war and crime will divide them
                 Gm                                          Cm
 so you better show the youth your fears and don t you hide dem
Cm                                       Fm
 and then equality and justice will unite dem
                   Gm                           Cm
 lift up your voice and you got to sing the anthem, mi go so den

[Chorus (x2)]

Verse 3:
 long time we fade about your promises and lies
 your illusion and religion just covering our eyes
 frustration and starvation multiply
 depression till di well a gone dry
 can you show the love man and not the animosity
 can you live a life of with dem set in you tyrannomy
 me could I be your friend why you want to be my enemy?
 you can t take the future over ya star so come follow me, come follow me

[Chorus (x2)]

[Verse 1]
