**D Dsus**

**D** **Dsus**  
I ll take the sun and watch it surround you

**D** **Dsus**  
All of the rain will fall all around you

**D** **G**  
And I-I I ll pull you closer when you re floating far away

**D** **G**  
And I-I-I don t need no reason we ll just get away

**D** **G** **A**  
When we sail into the sun, into the sun

**D** **G** **A**  
When we sail into the sun, into the sun

**D** **Dsus**  
I ll make the clouds a carpet and canopy

**D**  
Won t touch the ground

**G**  
I ll stay up here just you and me

**D** **G**  
And I-I I ll pull you closer when you re floating far away

**D** **G**  
And I-I-I don t need no reason we ll just get away

**D** **G** **A**
