This is easily one of the most beautiful and original songs I have ever heard. Check out [www.georgeazzimusic.com](http://www.georgeazzimusic.com) to listen. I have never taken the time to tab anything out. In fact, I have always used [ultimate-guitar.com](http://ultimate-guitar.com) for my tabs and have never registered until hearing this song and wanting to make tabs available to all. Please enjoy.
