I m living in the material world, living in the material world.

After living in the material world.

world. Senses never gratified, only swelling like a tide that could

drown me in the material world.

F **E7** **A** **F**
While I m living in the material world, not much giving in the

material world. Got a lot of work to do, try to get a message through

and get back out of this material world.

I m living in the material world, living in the material world. I hope

to get out of this place by the LORD SRI KRSNA S GRACE. My salvation
