**E7**  
Remove the dark from in me  
**A7** [INTRO]  
And give me that which I have lost

As all had seemed lost a light from Heaven breaking  
A flash - inward illumination  
Enriched his life more than any words can tell  
He stood there, life renewed fresh as rain  
Scales were falling from his eyes again  
The bolts of his prison opening - he s saying

I found someone who showed me  
Illumined my consciousness  
Removed the dark from in me  
And given me that which I have lost

You people don t have time to listen to him  
You re too busy fighting revolutions  
That keep you back down in the lower world  
Your mirrors of understanding they need cleansing  
Polish away the dust of desire  
Before pure light will reflect in them

You need someone to show you  
Illumine your consciousness  
Remove the dark from in you

And give you that which you have lost
