

Your Love Is Forever
George Harrison

D
Sublime in the summertime, warm and lazy
These are perfect days like heavens about here,
G **A** **D**
But unlike summer came and went - your love is forever,
Gm G
I feel it and my heart knows that we share it together.

Resigned to the winter times cold and dreary
Peering into fire flames, burning I know
That unlike winter came and went - your love is forever
I feel it and my heart knows that we share it together

D **A**
I feel it and my heart knows you re the one
F **C**
The guiding light in all your love shines on
Gm G
The only lover worth it all - your love is forever.

Verse 1
