

House With No Doors
George Strait

Standard Tuning - Capo 1

A

I was there in my trailer, down at the job-site

E

The day that this stranger walked in

A

His face looked so sad and he carried a set of blueprints

And as I unrolled them the first thing I noticed

D

Were there were no doors in the plans

E

He said if you build this for me, then when she comes back

A

Sheâ€™ll never be able to leave me again

Chorus:

D

I said if I did, and she ever came back

A

Friend, tell me how would she get in 

E

It would just be a prison that I locked you in

D

If you couldnâ€™t leave youâ€™d never know

If there was someone who loved you

A

The way that she didnâ€™t before

E

Thereâ€™s two things that I know for sure

Is that you canâ€™t make a woman feel something she donâ€™t

A

And you canâ€™t build a house with no doors

Key shift: (Everything is raised up two steps) 

D = E

A = B

E = F#

For a while he was quite, I could tell he was thinking

I thought I just ruined his day

I just couldnâ€™t bare to see this mans last hope slip away

So I thought real fast, and I started talking said

Buddy, weâ€™ve tried this before

And if there ainâ€™t one sheâ€™ll make on
And either way, sheâ€™ll run
And leave you a house with a hole for a door

Chorus:

with these lines after:

No, you canâ€™t make a woman feel something she donâ€™t
And you canâ€™t build a house with no doors
